PROFESSIONAL SUMMARY

Available for immediate joining.

Full Stack Developer with 3 years of experience building production web applications with **React.js**, **Next.js**, TypeScript, **Python**, and **FastAPI**. Specializes in frontend architectures, API development, and RAG-based GenAI solutions using LangChain, embeddings, and semantic search. Delivers clean, reusable components, automated testing, and cloud deployments on AWS with DynamoDB, Lambda, Docker, and secure SSO.

EXPERIENCE

Sketch Brahma Technologies — Bengaluru
Product Engineer — Jun 2026 – Sep 2026

- Implemented responsive web applications with React.js, Next.js, TypeScript, HTML, CSS, and JavaScript, integrating REST endpoints to support end-to-end workflows, **delivering 3 production web applications** on schedule.
- Optimized frontend performance through lazy loading, dynamic imports, and code splitting in Next.js, **reducing load times by 35%** and enhancing perceived responsiveness across critical pages and interactions.
- Led CMS-driven experiences by integrating Strapi with Next.js and reusable components, enabling marketing-controlled pages and content governance, **cutting publishing effort by 45%** without developer intervention for routine updates.

Dexian — Chennai
Full Stack Developer — Mar 2024 – Jun 2026

- Implemented full-stack features across product, cart, checkout, account, and orders using React, Next.js, TypeScript, Redux Toolkit, and REST APIs, **launching 3 production web apps**.
- Optimized frontend performance with lazy loading, dynamic imports, code splitting, and Next.js rendering strategies; expanded test coverage using Jest and React Testing Library, **reducing page load time by 27%**.
- Owned integration of Redux Toolkit state and RESTful services with Node.js and Express.js across product, customer, order, and payment domains, coordinated Cypress end-to-end suites, **supporting 10 critical commerce workflows**.

EDUCATION

Sathyabama Institute of Science and Technology — Chennai
Bachelor of Engineering (B.E.) — Aug 2020 - Jun 2024
Major in Computer Science and Engineering

PROJECTS

React FastAPI BID Management Platform — Jun 2026

- Engineered React, TypeScript, and FastAPI modules with MySQL and SSO, containerized via Docker, **processing 2,000 daily requests**.
- Built a LangChain RAG chatbot with FastAPI and React UI on AWS, **reducing manual effort by 38%**.

Next.js Support Knowledge Search Assistant — Mar 2026

- Built Next.js and FastAPI RAG assistant with LangChain and vector embeddings, delivering conversational answers and **achieving 1.6 second median latency**.
- **Increased self-serve resolution by 31%** through semantic reranking, DynamoDB-backed metadata filters, and automated document ingestion on AWS.

API Usage & Cost Dashboard — Dec 2025

- Architected Next.js dashboard and FastAPI ingestion with DynamoDB to aggregate provider logs, **processing 4,800 daily API events**.
- Implemented cost anomaly detection and threshold alerts in TypeScript and Lambda, **reducing monthly API spend by 27%**.

TECHNICAL SKILLS

Key Skills: React.js, Next.js, TypeScript, Node.js, FastAPI
Programming Languages: TypeScript, JavaScript, Python, SQL, HTML5
Frontend Development: React.js, Next.js, Redux Toolkit, Material UI, Tailwind CSS
Backend Development: Node.js, Express.js, FastAPI, REST APIs, GraphQL
Databases & Data Management: MySQL, PostgreSQL, MongoDB, DynamoDB, Database Design
Cloud, DevOps & Tools: AWS Lambda, Amazon EKS, Docker, Git, CI/CD
Testing & Quality Assurance: Jest, React Testing Library, Cypress, Unit Testing, End-to-End Testing

CERTIFICATIONS

React Development, Next.js Development, Backend API Development, SQL & Database Design, Prompt Engineering
